

Java - openjdk

Openjdk-8 in Debian Buster installieren

Quelle: <https://stackoverflow.com/questions/57031649/how-to-install-openjdk-8-jdk-on-debian-10-buster/61902164#61902164>

Installation steps:

1. Install software source manager

```
apt-get update  
apt-get install software-properties-common
```

2. Add mirror with openjdk-8-jdk

```
apt-add-repository 'deb http://security.debian.org/debian-security stretch/updates  
main'  
apt-get update
```

3. Install openjdk 8

```
apt-get install openjdk-8-jdk
```
