

Visual Code

Problem mit bash Skripten und Zeilenumbruch mit Windows typischen "\r"

Lösung:

Edit: Jan 3, 2022. As `VSCode` is mentioned several times. Go to settings in VSCode and type `files.eol` in the search field and set to `\n` (Unix format). Note that this changes this for your user or workspace for all files and it may not be what you want. YMMV.
